WHITEPAPER-EN

BLACK PAPER LETTER

ARK
OF THE UNIVERSE

VERSION 1.0.0

WARNING

The purpose of this document is informative and immersive in the historical and economic context of the game. All information presented here will be subject to change, and therefore, you should consult the most up-to-date version on the official Ark Of The Universe channels.

The cryptocurrency market is considered high risk, for this reason, it is recommended to purchase any investment, consult a professional to conclude the benefit. It is exempt from any liability for losses of any category related to the Ark Of The Universe project, placing any investment in liability linked to the investor himself. Likewise, the Ark Of The Universe project is not responsible for the value of the ARKS token, as it is being valued by the cryptocurrency market itself.

Any and all information that does not comply with this document should be disregarded, as it is the official document for any current information, according to the current version of the blackpaper. Therefore, if the site, or any other channel has any discrepancies, any decision should be based on this document. We emphasize here that the language used throughout the document is not intended to induce any investor to take hasty action. An immersive language was used, with the lyrical self of a character to bring an innovative experience in reading a whitepaper.

As for the security of the purchased tokens, and the purchased NFTs, they will be solely and exclusively under the responsibility of their owner, thus exempting the Ark Of The Universe project from any responsibility for attacks, theft, theft or losses of any nature.

In case of doubt, we recommend contacting the developer team on the official channels to clarify any misunderstood information.

All rights are reserved to Ark Of The Universe, and all information is intended for the study of the project.

INTRODUCTION. MAYBE A GUIDE

“Ark Of The Universe”, a great name to make sense of everything that is to come.

My identity I cannot reveal.
My location cannot be discovered.
My current year cannot be shared.

Consider me a help, or maybe a guide, someone who let opportunities pass and wants to change the reality of a generation, where he still has a chance to be part of a really relevant purpose.

My goal is to clarify doubts you may have as I once did, and make your own decision. If all my letters reach you, I'm sure you'll be able to survive the biggest event that is approaching your time.

The name “Ark Of The Universe” in this time is a project in development, with the purpose of Metaverse, gateway to the beginning of great events that I still cannot interfere.

In the year 2022, it will be a 3D game, with P2E profitability, and blockchain engine bringing profit to Arkans through NFTs, in a simplified way: they are functional digital products that are safe in your account.

“Arkans” will be named all who are investing in the Ark project, and joining the purpose that I'm here to tell you.

I don't want to bring fear, panic or despair. I want to bring you closer to the reality and be able to take action understanding what will happen soon.

Humanity will be leaving in its last ship, with the last survivors of Earth where the name of this ship will be known as the Ark.

The departure of humanity was due to a betrayal of an alliance made out of fear and lack of knowledge.

What you need to know first is that the commanders managed to make a "space jump", something you might think of as a rocket launch, only requiring much more energy, calculation and time. Unfortunately, waiting was not a possibility, and now surviving will **only be the beginning.**

ASPECTS

There are 3 aspects that you cannot lose sight of.

- **Place**: Ground, Climate, Biodiversity, Resources
- **Community**: Unity, Purpose, Rivalries, Cultures
- **Decision**: Your choice

PHASE 1.0

In the first stage of the game, you will find the following scenario:

- **Place:** They are located in space with asteroids and may contain necessary resources.
- **Community:** Humanity needs to adapt.
- **Decision:** I can't say what, but it will be one of the most important choices to make once you get enough resources.

Contextualization, information acquired and considered, will always bring an advantage to those who are wise, or consequences to those who are imprudent. These aspects can guide you, when my letters are not illuminating your next steps, or my information is avoided, in favor of your free will.

Don't forget, your choice has great relevance here.

DYNAMICS
THE DIFFERENCE WILL BE IN HOW

Every evolution of Ark Of The Universe was observed by me, with an interactivity and sharing of decisions closer to the public than I have ever been aware of.

If you really understand the importance that your opinion has in the future, you won't miss the opportunities to argue, ask and give your opinion about your future in this universe that is about to begin.

SPHERES

The evolutionary and constructive dynamics revolve around 2 spheres:

PERFORMANCE

The choice will take into account parameters such as votes, polls and strategies

CHOICE

The performance will be based on the results of the community in performance, resources, events, combats and achievements.

The difference will be in how you do within Ark Of The Universe. Will your relevance be in your great motor skills, or intellectual skills? Your perspective needs to be widening at every moment.

The virtual world will not be the only mechanism and scenario used by commanders. Your city, neighborhood, square, your daily life... could become part of the evolutionary process of Ark.

MISSION AND VISION

GENERATE OPPORTUNITIES MOVE THEM

In all the actions that I was able to witness, I could see the essence of their objectives. If your question is no longer aimed at me, but at why this project started, your answer is simple: **generating opportunities move them**.

Your mission is to open doors to those who want to enter a new opportunity in life, and depending on how it is, even history.

Your vision has always been what I live today: a new reality, where Metaverse technology brings revolution to professions, finances, relationships, dreams and goals.

Behind 6 commanders there is a team that works together, and with the dream that can be shared and built with all of you. These commanders are:

GAMEPLAY

Now the part you should pay more attention to, will be how it will work in practice, the attitudes you can take, how you can act and how you can equip yourself **to become a** ARKAN

PHASE ONE FARM

- **SHIPS**
- **MINING**
- **MARKETPLACE**
- **STORE**
- **REFINEMENTS**
- **UPGRADES**

SHIPS

In this first phase, humanity has its only way of survival: the Ark ship, damaged and on the verge of collapse. It's up to you, ARKAN, to change this situation. Around the ship Ark there are thousands of asteroids rich in ores useful for the repair of the ship.

We count on you, especially in this initial phase, the new inevitable. Will you be able to survive?

There are 2 types of Ships to be acquired:
Basic Ship and **Elementary Ship.**

BASIC

Ships with lower attributes, as they were not designed by the council of engineers. It is said to have been the first prototype of Arkan's two greatest engineers when they were still young, and with few resources.

Its purchase can be made at the store in Ark for a lower cost, bringing more accessibility and opportunity to those who want to become Arkans.

After the vitality is zero, the ship breaks.

ELEMENTARY

Ships that have superior attributes, and distinct advantages. They will in fact be the NFTs that have greater relevance within the battles.
Its projection was commissioned by the disciples of Arkan's greatest engineers. It is said that some very rare models were designed by their own hands.

Your NFT is generated with your element and random rarity after purchasing a Hangar-Key in the store. (pag. 13)

ELEMENTS

They have specific attributes and advantages from phase 2 onwards.

- **CINTH: Crystal**
- **EVERH: Hydrogen**
- **DOOK: Wave**
- **ARGTH: Light**
- **RAFYT: Metal**

RARITY

Increases attributes. Rare probability list.

ALFA: 65%	◈
BETA: 22%	◈◈
DELTA: 12%	◈◈◈
OMEGA: 1%	◈◈◈◈

Each Arkan can have up to 4 Ships, being 3 Elemental Ships and 1 Basic.

Each IP can have 2 accounts. If you do not comply, your account will be deleted.

MINING

Once you own a ship, you can actively contribute to the survival of humanity. I hope you can pay close attention to all the information.

REQUIREMENTS

Before going out and mining with your ship, you will have to understand some important factors, such as equipment needed and dangers out there.

VITALITY

Each ship can take damage to its vitality by two factors: time and collision.

- Time: each ship has a lifespan and can be repaired with the help of professionals through the repair item in the shop.

Depending on the power (rarity) of the ship, due to its great mining capacity, a more recurrent repair is necessary.

Each ship will have a lifespan relative to the ROI of its rarity multiplied by 2.

- EX: Alpha Rarity (ROI being 25 days) - After 50 days (ROI x 2) the ship will have its vitality reset by the action of time.

NOTE: The fluctuation of the Governance Token was not taken into account. Collisions suffered were not taken into account in the time calculation.

- Colisão: each ship when mining, will have a collision risk. On the mining panel you will have an alert button. This button should be watched carefully as it signals the collision course of an asteroid with your mining ship. Pressing the button as soon as possible avoids the collision and damage to the ship. If you delay pressing the button, exceeding the time of 20s, the ship will suffer 5% damage to its vitality.

FUEL

Each ship to be mining, must be supplied with fuel. Fuel can be purchased from the Ark shop. The factors that will use up your fuel will be: mining and collision time, as well as the vitality example.

The average fuel spent per day will be 2 SSS fuels.

RADAR

In case you have a mishap in your mining, you can use the radar item to help you preserve your ship from collisions. Along with the radar intelligence system, there is an A.I. to be able to trigger the fuel item if you have it in your inventory and it is needed to complete the mining trip.

REWARD

Your reward after each mining will be the ores of each element, namely: Cinth, Dook and Rafyt.

After collecting the ores you can refine your ores. (pag. 16)

MARKETPLACE

The market is located in the center of Ark, where all the places meet, and you can trade with anyone.

On the market you can trade:

- **Refined Ores**
- **NFTs**
- **Itens**

STORE

The store will be a great ally for your growth within Ark. You'll get everything you need in the store with the resources you'll get with your Ships.

The store offers the purchase and sale of products by SPACE currency. Don't worry, I will explain about the economy at the end of my letter.(pag. 24)

PURCHASED PRODUCTS

SHIPS

Basic Ship: They are built by engineers inside the Ark Ship in the midst of great precariousness.
Preço: **2.560.000 SPACE**

Hangar-Key: It's the key to an Ark Ship's hangar. After being used, Arkan receives his ship with rarity and element.
Preço: **4.980.000 SPACE**

COINSUMABLES

Common Repair: Hire a newly graduated engineer, but with great talents. Restores 50% of the ship's health.
Preço: **2.150.000 SPACE**

Complex Repair: With a team of engineers, you will be able to have an excellent maintenance on your ship. Restores 80% of the ship's health.
Preço: **3.250.000 SPACE**

Total Repair: By hiring the most recognized team of engineers, "you'll have your ship better than it did in the factory", at least that's what they always say. Restores 100% of the ship's health.
Preço: **3.900.000 SPACE**

CONSUMABLES

Fuel: All ships need to be well fueled. This is an obvious one, but it's worth pointing out from time to time. Without it, your ship cannot be used.

Fuel S: Increases fuel by 50% - Price: **450 SPACE**
Fuel SS: Increases fuel by 80% - Price: **620 SPACE**
Fuel SSS: Increases fuel by 100% - Price: **824 SPACE**

Boxes: While the Ark Ship was prepared to take off, many supplies were stored in boxes, including some very valuable ones. I remember many lucky ones who managed to open some and find a Hangar-key there.
PROBABILITY TO COME:

- 1 Basic Ship (55%)
- 1 Repair (Complex) (29%)
- 1 Hangar-Key (10%)
- 1 Fusion (5%)
- 1 Catalyst (SS) (1%)

Box Star: 1 item - Price: **5.000.000 SPACE**
Box Constellation: 5 itens - Price: **22.500.000 SPACE**
Box Galaxy: 10 itens - Priçe: **40.000.000 SPACE**

Quantic Radar: Basically with radar technology you enjoy the benefit of protecting your ship from further damage through collisions with asteroids.

Radar S: Protects 3 days - Price: **175.000 SPACE**
Radar SS: Protects 7 days - Price: **350.000 SPACE**
Radar SSS: Protects 15 days - Price: **600.000 SPACE**

IMPROVEMENT

Atomic Fusion: Great energy accumulated and balanced to be placed in the ship that wants evolution and improvement. Can increase the ship's attribute if successful.
Price: **5.000.000 SPACE**

Atomic Catalyst: As each level of fusion becomes difficult with each step, a scientist managed to produce catalysts to increase the success rate of each fusion. There are quality levels of Catalysts.

Catalyst S: Increases the probability of success by 5%
Price: **5.000.000 SPACE**

Catalyst SS: Increases the probability of success by 10%
Price: **9.000.000 SPACE**

Catalyst SSS: Increases the probability of success by 15%
Price: **12.000.000 SPACE**

PRODUCTS SOLD

RESOURCES

Refined Ore: Ores are very valuable within the Ark, especially after undergoing refinement. Stores pay very well for each feature.
1 ORE = 13.333 SPACE

Raw Ore: Raw ores are not paid as well as refined, but they still have their value, never think about throwing away your resources.

1 ORE = 799 SPACE

REFINEMENTS

I remember seeing many newbies confused and lost in what to do when they had gotten their first resources from asteroid battles. You don't have to go through the same difficulty.

You must pass the refinery. It is close to the engine part and there you will make ores become something really valuable. I'll be sending you a refinement chart, which will make it clearer how to refine your features.
10 Raw Ores (do mesmo elemento) = 1 Refined Ore

Minimal Refinement: 1
Maximum Refinement: 10

Each Refinement has an amount paid to keep the refinery running.
Valor: **12 SPACE**

Refined Ores are worth much more than raw Ores, however, you can exchange Mixed Ores for **SPACE** in the store when you don't have enough ores to refine.

UPGRADES

Now that you've managed to understand so much information, I have to teach you the best way to progress and be prepared for future events that only the trained will be able to bring significant results to humanity.
Your ship might be good, but it might get even better.

After the alliance made that brought catastrophe to humanity, the first years yielded great learning, including evolution through atomic fusion to the elements. Your ship has attributes, and each attribute can be improved.

As the levels of evolution are reached, the denser the energy and the more delicate and sensitive the atomic fusion. But their success brings benefits worthy of those who try not only to use their ships, but to empower them even more.

There are levels of fusion that are so difficult that when a ship with such a level appears, you can actually become famous just for owning that ship. Therefore, value each evolution.

They work as follows:
COST X SUCCESS

COST: Each level has ore cost and ARK.

SUCESS: Each level has an improved attribute. There is a chance of failing/regressing the NFT.

LEVELS

1

STARTING LEVEL

2

COST: 130 REFINED ORES + 1 FUSION
FAILURE: 20% **RETURN:** 0%
SUCESS: 80%

3

COST: 156 REFINED ORES + 1 FUSION
FAILURE: 35% **RETURN:** 0%
SUCESS: 65%

4

COST: 200 REFINED ORES + 2 FUSION
FAILURE: 60% **RETURN:** 0%
SUCESS: 40%

5

COST: 280 REFINED ORES + 2 FUSION
FAILURE: 53,33% **RETURN:** 26,66%
SUCESS: 20%

6

COST: 420 REFINED ORES + 3 FUSION
FAILURE: 42,5% **RETURN:** 42,5%
SUCESS: 15%

7

COST: 670 REFINED ORES + 3 FUSION
FAILURE: 33% **RETURN:** 66%
SUCESS: 1%

PHASE TWO
PVP 3D

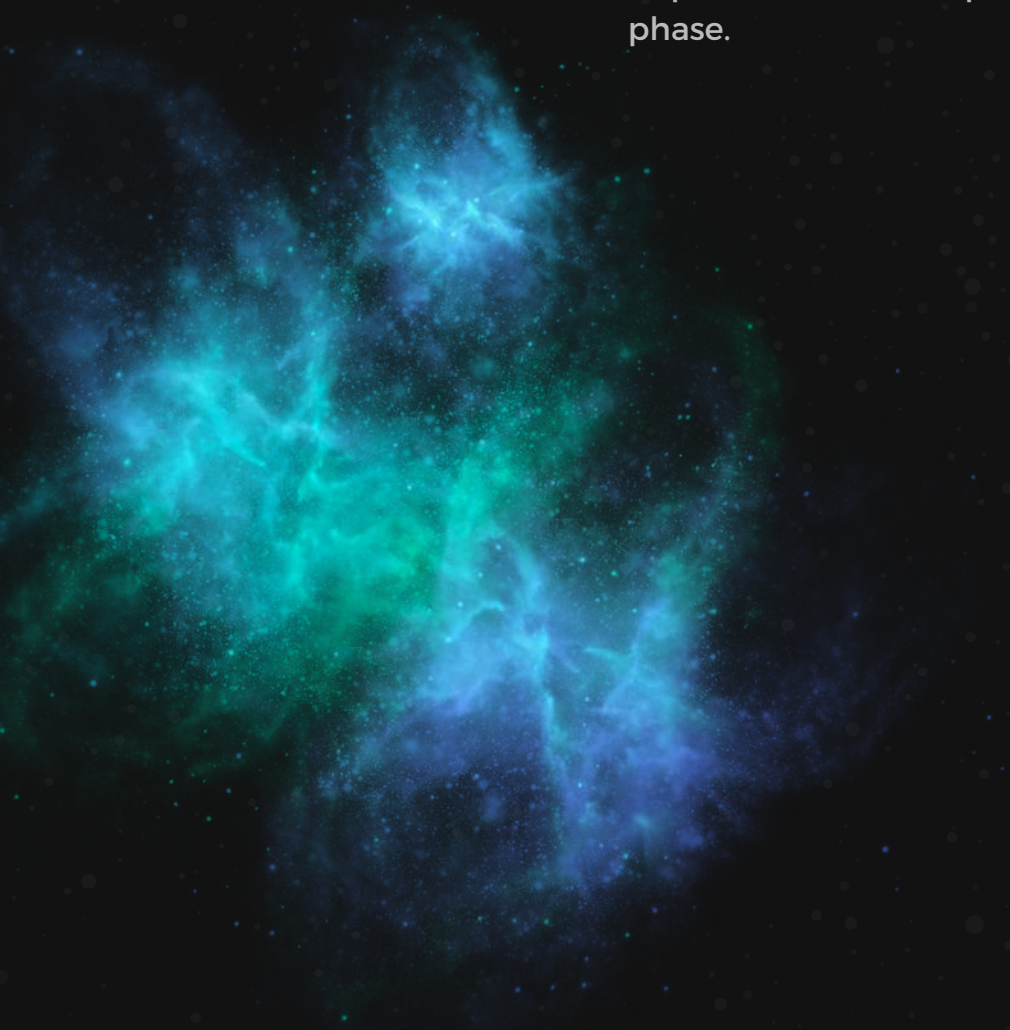
- SHIPS
- COMBAT
- BREEDING
- SCHOLARSHIP
- RANKING
- TOURNAMENT

SHIPS

In this second stage, you will not see a war in the skies, but in space. The Arkans will be all those who have the courage to vie for the limited resources of the Asteroids. The ships will have the function of being part of Arkan's body, his life, his honor. Each person who ventures into the Ark will have their own Ship, with their own particularities, It's up to you to know which one best suits your riding style.

Each ship will have different abilities in combat.

New studies with elements that will provide even more competitiveness will be implemented and presented close to this phase.



When the times of duels between Arkans come around, a revolution in skills and talents will be very much present. Understand better about.

The form of combat will be with online multiplayer, fighting within a spherical map for the same objective.

MAP

Three-dimensional spherical map created by asteroids through the magnetism and gravitational force of ores clustered at the center.

Each element has its proper and important function. Inside the Dome the contest will be constant, and victory will depend on your skill in adapting and acting.

OBJETIVE

You and your team will have to compete against 5 other players inside a Dome.

Formed by the resource you will have to battle.

Whoever gets the most resource within the time limit wins.

Whoever manages to invade the opposing base wins.

OBSTACLE

Obstacles are very important for strategy formation, they can be a great ally, or a great wall between you and your possible escape.

BASE

Inside the game, you will have your base, and the opponent will have his. The bases are fundamental pieces that can decide the game in seconds. While teams need to get out of their bases to combine strategies to collect ores in the center of the Dome, they need to be careful to protect their bases.

Allied Base - It will function as a collection center and guarantee the extraction of ore in the center of the Dome. All collected ore cannot be stolen by an opponent.

Enemy Base - It will have an objective of immediate victory, however, it needs to pass a ship with 100% health to be able to validate.

TEAM

As for the main element, be sure of one thing: it won't be your ship, or how good you are on your own. Your team will make a total difference in every battle. Form alliances and battle together, this will be a great way to improve your performance. Teams will be divided into 5x5.

ORE

The center of the Dome will have the much-coveted objective that everyone will use their skills to gain the rare and limited resources in space.

To be able to score with the ore objective, you must make the last attack, giving the team a score successfully.

BONUS

The will be secondary objectives to bring mechanisms that will allow significant changes and even defining the course of the duel. They will allow specific plays, tastes and strategies thought out and shared throughout the experience of each Arkan, in each combat.

LIMITI

The Dome with a high concentration of ore in its center creates a gravitational field of attraction and repulsion. Attracting the asteroids around creating a shell, repelling some ores out, generating the great battlefield.

MODES

- PVP -

- 3x3 -

- 5x5 -

RANKING

The commanders wisely separated the more experienced Arkans from the beginners to fight each other and compete fairly for their resources.

To ensure everyone's acceptance, they set reward tiers by rank tier, **keeping battles fair and encouraging the best of each Arkan.**

They were divided into:

ASPIRANT

EXPERTISE: X À X
REWARD: X ORES

LIEUTENANT

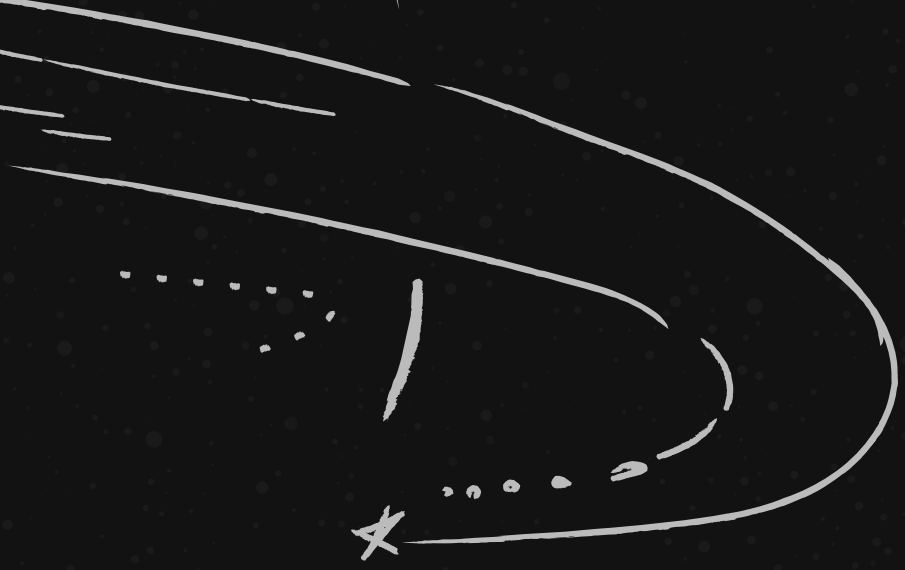
EXPERTISE: X À X
REWARD: X ORES

CAPITAIN

EXPERTISE: X À X
REWARD: X ORES

MAJOR

EXPERTISE: X À X
REWARD: X ORES



CHECK-IN

Subject. This is the best way to multiply your talent. You will have a check-in function into the Ark, with which you will be able to guarantee some rewards for your dedication to rebuilding a strong and hopeful humanity.

DETAILS

Each day is checked between 00:00 UTC to 23:59 UTC. The verification will be confirmed with Arkan's check in the dashboard. CHECK-IN.

Each daily reward will have to go through a period of 7 consecutive days, and can not only stop progress but also regress if the player has not confirmed their presence for the day.

Player withdrawals can be better viewed on the economy page. (pag. 27)

ECONOMY

Before you start taking any action, understand how the economy behind Ark Of The Universe works. A few centuries after the Ark project was launched, calculations were found several times with the phrase **"opportunity for all"** written on it. It is said that the author of the calculations found is the same scientist who invented the catalysts.

On Ark, you'll find meaning in every detail, whether here, in battle, or in your own life. I will speak clearly and objectively on each topic so that you can feel safe, and find, in the words of the great scientist indeed, "opportunity for all".

COIN

The Ark Of The Universe economy revolves around two currencies: ARKS e SPACE

ARKS - GOVERNANCE CURRENCY

Functions:
- **Profit Realization**
- **Buying NFT**
- **NFT improvement**
- **Buy and Sell on Marketplace**
- **Conversion to SPACE**

SPACE - DOMESTIC CURRENCY

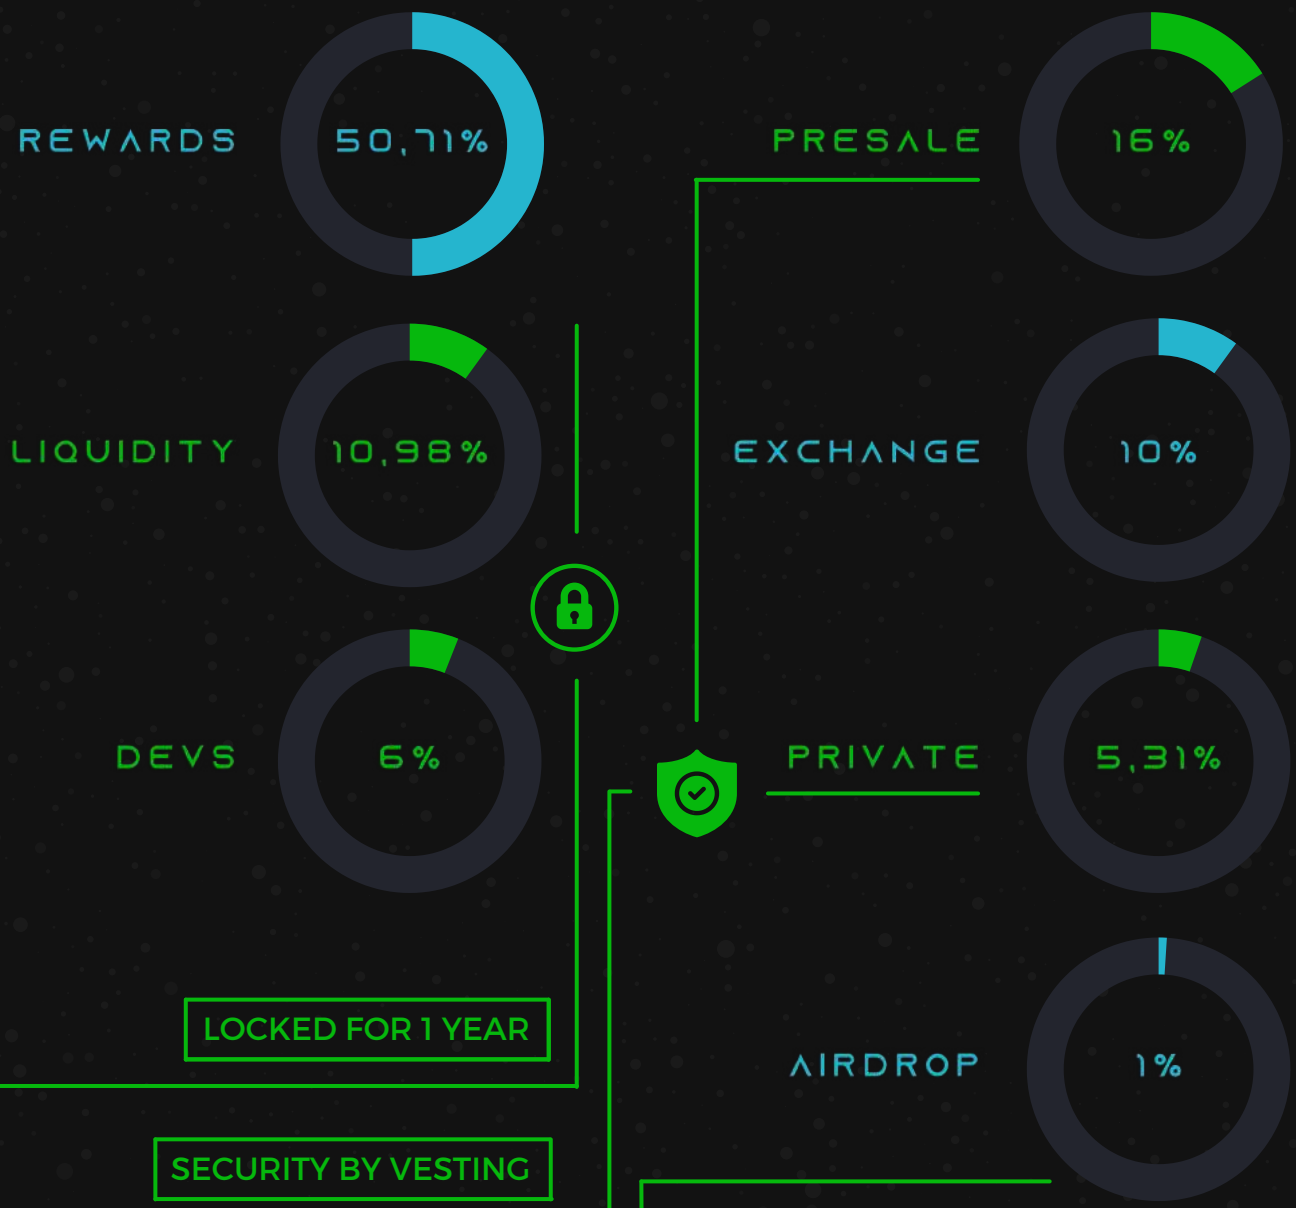
Functions:
- **Compra de Itens**
- **Taxa de Refinamento**
- **Pagamento de Vendas em Loja**
- **Compras de NFTs**
- **Melhorias de NFTs**

PROFIT

Diversification will be a great gateway for many to be within the Ark. Initially you will be able to make a profit with: **Combat, Ranking Rewards, or Ship Development and Sale.**

TOKENOMICS

SUPPLY 500 MILLIONS



LOCKED FOR 1 YEAR

SECURITY BY VESTING

The "vesting" mechanism makes the token available in fractions in order to provide security against sales. This will bring better stability to the graph and credibility regarding the economic planning of the project.

PRIVATE 0.3 to 1 BNB: Per Week
50%, 25%, 25%

PRIVATE +1 BNB to 2 BNB: Per Week
40%, 25%, 25%, 10%

PRIVATE +2 BNB - 1 BNB: Per Week
30%, 20%, 20%,20%, 10%

PRESALE: Per Week
30%, 20%, 20%, 20% 10%

TAX

The resources to be able to keep the ARK project in constant evolution will come through the fees for buying and selling the governance token. Sustainability and transparency can be seen in each infographic that I will be sending you.

Any ARKS transactions has an 11% fee

There are other perspectives for raising funds, as the project progresses. A pillar that will be constantly evolving will be in the Project Ark economy. As credibility, authority and excellence are added to the project, biggests innovations will be implemented.

CLAIM

To make the withdrawal, you must be aware of a fee that can be waived following the sustainability planning of the Ark project.

This system was implemented to avoid mass sales, which lead to other sales influencing the chart and sales attitude due to the fear of sudden movements.

CLAIM DAY

1°	2°	3°	4°	5°	6°	7°
						350 SPACE
				167 SPACE		
			541 SPACE			
		109 SPACE				
157 SPACE						
50%	41%	32%	24%	16%	08%	0%

Each day will have its reward, and each reward will have to go through the rate deflation process for a total period of 7 days. This will make each person at the end of the 7 calendar days have their withdrawal free of the control fee. It will have as dynamic the check-in for the withdrawal. (pag. 23)

CONVERSION

01 ARKS → **35** SPACE

INPUT
30% return toPlay To Earn

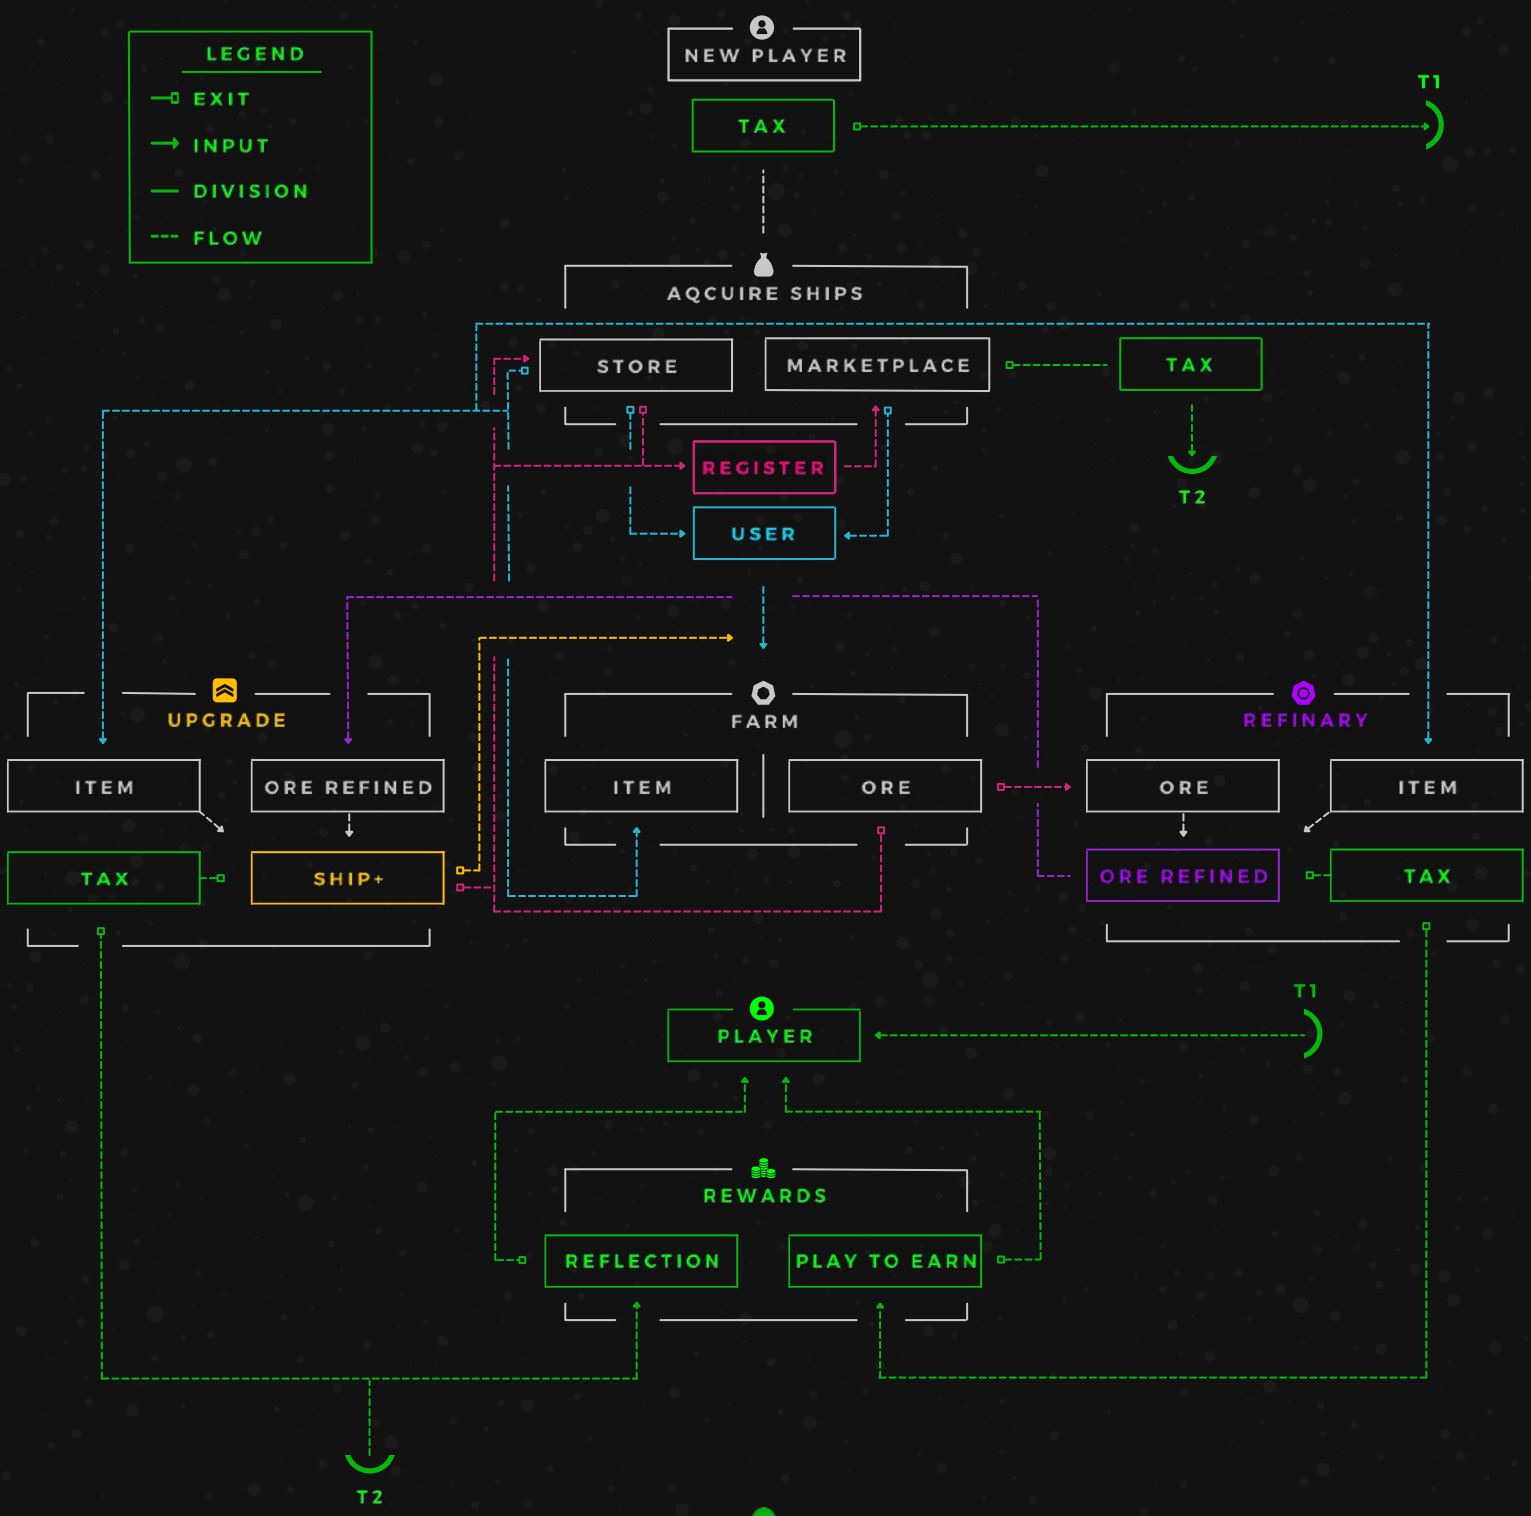
52 SPACE → **01** ARKS

EXIT
04% return to Play To Earn

FLOWCHART

Some maps designed to illustrate the way in which commanders have developed stability in the economy should help to understand how Project Ark works economically.

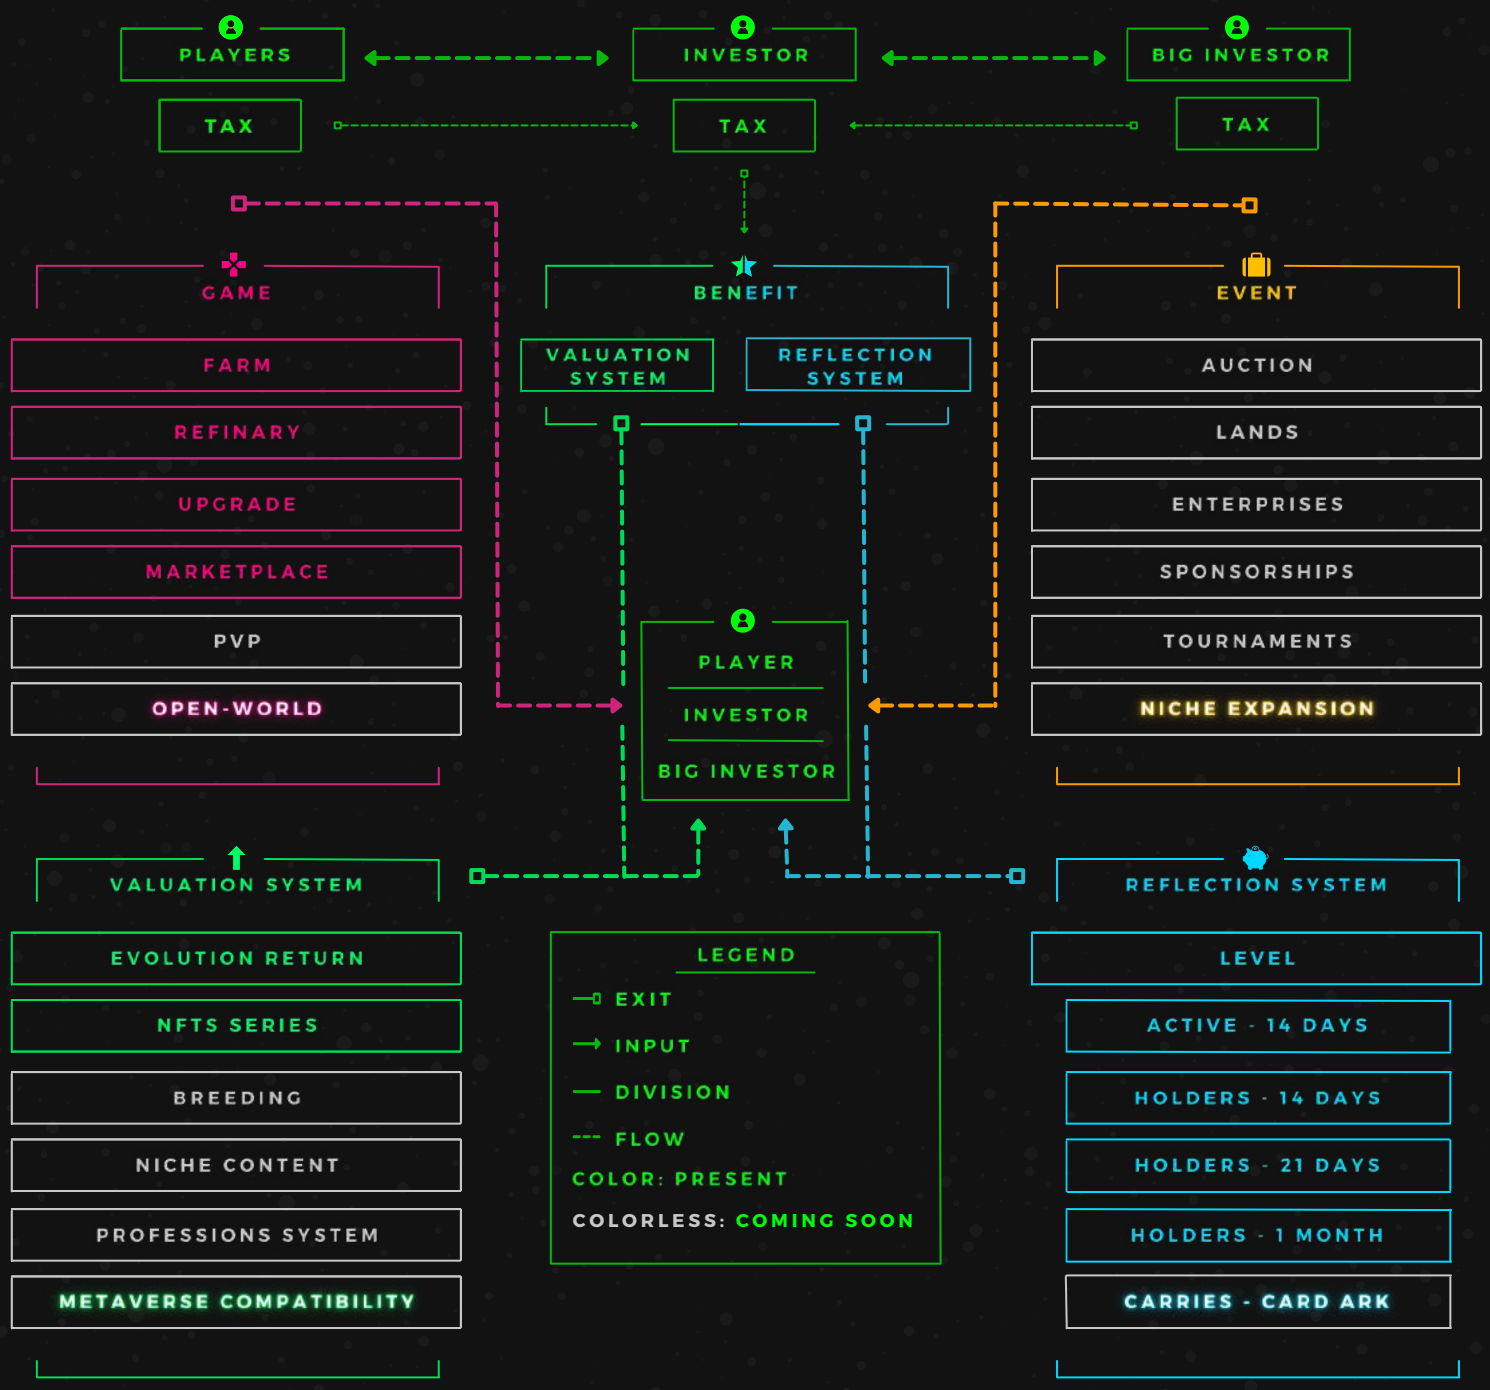
PLAYER



FLOWCHART

Not everyone will have relevance like Arkans, fighting, battling more actively, but others who will be big investors, will be able to move the economy in favor of Ark Of The Universe.

INVESTOR



In Ark economic planning, you will notice 4 big and relevant sectors. They are separated into: GAME, EVENT, VALUATION SYSTEM e REFLECTION SYSTEM

GAME

The game will go through **several updates and improvements**, thus bringing greater appeal to different types of players. This will bring a **large number of active people** to Ark, which will enable **large economic functions to be viable.**

EVENT

Small and large period events will be **launched to bring a new form** of profitability and propagation of the Ark economic system. **Mechanisms, strategies and support will not be lacking to attract massive investments.**

VALUATION SYSTEM

A system aiming to bring in a **short, medium and long term** appreciation will be seen within Ark. With such deployments, they will bring an investment to each person **upwards over the months and years.**

REFLECTION SYSTEM

Another extremely important pillar, bringing a passive **income perspective**. With a dynamic system regarding your actions within Ark Of The Universe, **you will be able to boost your income even more.**

GAME

For a better understanding of the game's engine, see página 11.

PVP

PvP will be launched in Q2 2022. Its launch will have a big impact within the economy and marketing. Several changes to content of this modality will provide some essential points for the economy, being much more attractive and generating greater credibility to the project.

- INNOVATIVE GAMEPLAY
- PERFORMANCE REWARDS
- INNOVATIVE CONTENT FOR STREAMER

OPEN-WOLD

This modality will only arrive at the end of the year, however, it will bring great wealth to economic modalities and freedom for more complex mechanisms of economy. At this stage, large acquisitions within the Ark Universe under construction will be a possibility, leveraging the economy.

- EXPANSION OF VENTURES
- DIVERSIFICATION OF NFTS

EVENT

AUCTION

Auctions will be applied to some in-game items to get the most potential out of their sales.

LANDS

Different types of land will be sold at a value proportional to their benefits, bringing another great economic opportunity.

ENTERPRISES

Developments will be possible with updates, which will generate an even more dynamic economy and broad accessibility.

SPONSORSHIPS

Sponsorships will be available and viable as the game evolves. This will bring visibility and mutual economic capture.

TOURNAMENTS

Tournaments will be extremely important and will make the economy have many benefits, as well as great authority and consolidation in the market.

NICHE EXPANSION

Finally, a wide variety of niches will be targeted by the project in order not only to establish itself in the gamer market, but in several others. This brings economic security, as its capture, circulation and target audience will be increasingly comprehensive, also providing greater job opportunities.

VALUATION SYSTEM

EVOLUTION RETURN

Every NFT can be improved. To bring a greater appreciation of each level, a regression mechanism was implemented. Some upgrade levels may not only fail but also regress one level. This causes a greater shortage of extremely high-tier NFTs and brings appreciation to the assets that achieve such an achievement.

NFTS SERIES

Inside the Ark, to bring long-term appreciation to any NFT acquired, a generational system for NFTs has been implemented. So, after a period not stipulated, the NFTs will go out of line, thus bringing appreciation for the rarity of generation over time.

BREEDING

To bring even greater value to those who own an NFT, as Ark Of The Universe evolves, NFTs, items and various assets will be given to the community for creation and sale, generating an economy aimed at active Ark players.

NICHE CONTENT

Each update contributes to the immersive content of Ark Of The Universe. This brings to content possibilities for youtubers and streamers for example. With this perspective, promoting an external economy will bring returns into the Ark.

PROFESSIONS SYSTEM

Opportunities, revolution and economic wealth will be provided through the professions system. With this mechanism items, NFTs, lands and each achievement will have greater economic relevance.

METAVERSE COMPATIBILITY

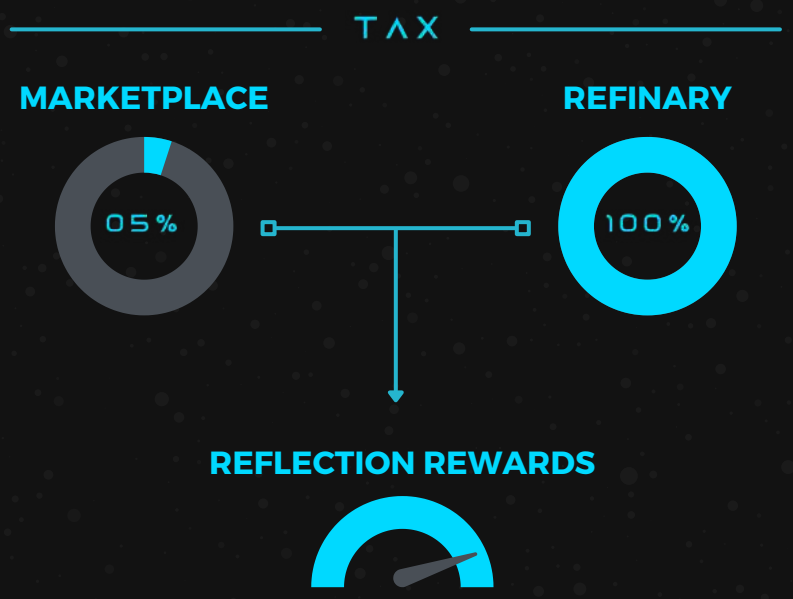
All goods after metaverse compatibility have undergone immersive updates, bringing value to each item along with its rarity and functionality.

REFLECTION SYSTEM

The reflection system called by many of "stake", was implemented aiming to bring a passive income perspective, with intelligent distribution provoking beneficial behaviors to the Ark economy.

CAPTATION

All funding from the reflection system will be obtained from the 05% fee on each Marketplace trade, and from the refinery fee.



REWARDS

The token reward will be in: ARKS - Government Currency from the Ark Of The Universe economy.

Your reward period will be every 1 month.

LEVELS

Rewards will be distributed as a percentage of the amount collected according to dynamic and sustainable economic planning, through 5 levels:

LEVEL 1 - 10% (PLAYERS)

- Active players for 14 uninterrupted days until the day of the rewards release.
- Have at least 1 Elementary NFT.
- Have at least 1 ARKS - Government Currency.

LEVEL 2 - 10% (HOLDERS)

- Holders who do not carry out any transactions to sell or exchange their wallet for 14 full days until the day the rewards are released.
- Have at least 1 Elementary NFT.
- Have at least 1 ARKS - Government Currency.

LEVEL 3 - 30% (HOLDERS)

- Holders who do not carry out any transactions to sell or exchange their wallet for 21 full days until the day of the rewards release.
- Have at least 1 Elementary NFT .
- Have at least 1 ARKS - Government Currency.

LEVEL 4 - 35% (HOLDERS)

- Holders who do not carry out any transaction to sell or exchange their wallet for 1 full month until the day of the rewards release.
- Have at least 1 Elementary NFT.
- Have at least 1 ARKS - Government Currency.

LEVEL 5 - 15% (CARD ARK)

- NFT CARD ARK holders will receive their reward on the day the rewards are released.
- Have at least 1 ARKS - Government Currency

CARD ARK

New NFT created to leverage the economy of Ark Of The Universe and also be attractive to large investors. Its main purpose, being the target of large investors, will be to generate economic oxygenation repeatedly at each pre-established period.

BUY

Your purchase can only be made at auction, from a previously established initial price.

Information on where it will take place and when will be released on the official Ark Of The Universe channels.

DECENTRALIZED

The permanence of bearer NFTs with their advantages will have a determined time, after the end of this time, all NFTs will return to the auction event for their new holder.

ADVANTAGE

15% of all tokens collected in the reflection system will be distributed exclusively among NFT holders.
